EXPERIENCE

Frontend Developer Intern

SIIC Chennai

Jan 2025 - Present

Chennai, Tamil Nadu, India

- Revamped over 60 web pages to modernize the website, elevating user engagement and ensuring an intuitive interface that resulted in a measurable increase in user satisfaction metrics gathered through post-launch surveys.
- Collaborated with a small team of 2 developers over 6 months to deliver a high-quality web solution.
- Maintained consistent communication to gather requirements, provide updates, and successfully developed 3+ websites.

Chief Design Officer

Turn2Law

Nov 2024 - Present

Chennai, Tamil Nadu, India

- Led the creative direction for a team of 5+ designers and developers, ensuring alignment with brand vision and user needs.
- Transformed the platforms UI/UX by designing intuitive navigation features, leading to a 20% surge in user engagement and enhanced customer satisfaction metrics based on direct feedback from usability testing sessions.

Full Stack Software Development Intern

Neugence Technology Pvt Ltd

Aug 2024 - Present

Remote

- Evolved and launched 2 fully functional websites as a frontend developer, ensuring seamless user experiences and adherence to project deadlines.
- Tailored and implemented responsive web designs, increasing user engagement by 38% through refined accessibility and cross-device compatibility.
- Migrated the entire codebase to Vite, reducing development cycle times by 25%, resulting in faster feature delivery and team productivity better than before.

PROJECTS

[simply-djs](#) — (Typescript, DiscordJS, NPM, MongoDB, NodeJS)

- Developed SimplyDJS, a third-party utility library for Discord.JS, streamlining complex bot functionalities with minimal code, leading to 400K+ annual downloads and widespread adoption across the developer community.
- Providing a developer-friendly and feature rich module, allowing Discord bot developers to integrate more than 30 features without having to write complex logic
- Maintained for more than 2 years with regular performance optimizations, security enhancements, and continuous feature updates compatible with the latest Discord.JS version.
- Reached more than 75 stars, 30+ forks, and 350+ commits on GitHub, with more than 5 active contributors to the project.

[ClassPro](#) — (Typescript, React, Go, NextJS, Supabase)

- Serving over 15,000+ monthly active users with 1.1M+ page views per month, ensuring scalability and stability for the students.
- Incorporated a Golang fiber server to scrape data which resulted in 40% faster data scraping and fetches reducing the wait time
- Optimized platform performance to handle peak traffic, ensuring 99.9% uptime and seamless access during critical academic periods.

[gitMyStat](#) — (Typescript, React, NextJS, Satori)

- Accelerated SVG generation by 20% using Satori in NextJS, achieving render times under 500 milliseconds and outpacing competitors.
- Built a builder website enabling users to assemble and fine-tune GitHub profile designs and statistics, boosting user engagement by 20%.
- Optimized backend architecture to handle 500+ concurrent requests, ensuring zero downtime during peak usage

EDUCATION

B.Tech Computer Science Engineering with AIML

[SRM Institute of Science and Technology](#)

Expected 2027

CGPA: 9.36

SKILLS

Languages	Javascript, Typescript, Python, C, Java, Go
